## Event Experience and Design

Transformative Approaches

**Krzysztof Celuch**

Event management and design are integral to human society, deeply embedded in our cultural fabric. As noted by Greg Richards, Lenia Marques, and Karen Mein, "Events do not just happen; they are carefully crafted to weave narratives (content) into places (context) through processes of experience design" (Richards et al., 2014, p. 1). Finally, we need to remember that events could shape our personal journey. We do not know what the magic Grail is to find a million-euro business, discover love, or build a life-long friendship. That is why designing experience is so important. It is always worth meeting.

## Event Medical Provision

**Ashley Garlick**

Event medical provision is an indispensable and increasingly complex facet of modern event management. It extends far beyond the traditional notion of simple first aid, encompassing a comprehensive planning system, resource allocation, risk mitigation, and emergency response designed to safeguard the health and well-being of all individuals involved in an event. The lessons from major incidents, such as the Manchester Arena bombing, and the evolving legislative landscape, including Martyr's Law, continually reinforce the need for robust, coordinated, and regularly tested emergency preparedness at all static venues.

## Event Policy

From Theory to Strategy

**Malcolm Foley** University of the West of Scotland, UK,  
**David McGillivray** University of West of Scotland, UK,  
**Gayle McPherson** University of the West of Scotland, UK

Events Policy: From Theory to Strategy locates the phenomena of events within a theoretical and strategic framework and in doing so demonstrates the links between the development of events in policy-making and the theoretical exploration of the role of events as policy. Building on a strong coherent framework the book explores the conceptual terrain in which events and festivities are located, evaluates the range of theoretical perspectives pertinent to the study of events policy, appraises the socio-economic and socio-cultural implications of event-led policies internationally and draws together the main theoretical and event policy issues for the future. The text utilises a range of international cases to help demonstrate the relationships between theory and strategy.

## Casino Management in Integrated Resorts

**Desmond Lam**

*Series: Hospitality Essentials Series*

Gambling or, perhaps more appropriately, gaming is an activity that is generally accepted by our modern society and often involves the use of money to take risks so as to gain additional value. The activity is sometimes described as playing a game of chance that involves some elements of chance and/or skill. It can take various forms in different cultures and across time. In the absence of prior empirical evidence (i.e., research-based or evidence-based findings), best practice should prevail. Under the best practice principle, a practice that has shown the best possible evidence of success (or effectiveness) should be adopted.

Stereotypical gender roles are being redefined, and we are beginning to witness more females in senior roles. An increase in family-friendly policies and flexible working hours also means that childcare responsibilities are being shared between parents, and women are now more able to continue their careers after having children.

## Destination Brands

**Nigel Morgan** Cardiff Metropolitan University, UK,  
**Annette Pritchard** Cardiff Metropolitan University, UK,  
**Roger Pride**

This is the long awaited new edition of this pioneering marketing textbook. When the first edition was published in 2001, destination branding became a marginal, niche topic. Thanks in part to this book and the ongoing research of these authors, this is now a core subject for students and a key concern for tourism industry professionals. Many destinations - from individual cities to entire countries - are adopting branding strategies similar to those of leading household brand names in an effort to differentiate themselves and to emotionally connect with potential tourists.
